

SOURCEWEB SOP - BITCOIN PURCHASE

TO MAKE THE SALE PROCESS AS SECURE AND TRANSPARENT AS POSSIBLE, WE OFFER A PROVEN APPROACH THAT IS ACCOMPANIED BY OUR ESCROW ATTORNEY. THIS PROCESS ENSURES THAT BOTH THE BUYER AND THE SELLER ARE FULLY PROTECTED AND THAT THE PURCHASE GOES SMOOTHLY.

TERMS AND CONDITIONS

1. Bitcoin Wallet is provided and released for Review

Once the Bitcoin wallet is provided, it is reviewed to ensure that it is accurate and functional. This review is important to avoid subsequent transaction errors and ensure a smooth process.

2. Lawyer-to-Lawyer Meeting on Proof of Capital and Satoshi Test

As part of the meeting between the lawyers of both parties the buyer provides proof of capital. At the same time, the seller must carry out the so-called Satoshi test together with their lawyer. This involves the buyer transferring bitcoins to the seller via the wallet ID provided and then immediately transferred back by the seller. This serves to ensure that the seller actually has access to the specified wallet.

3. Contract Signing and Purchase Processing

The contract can optionally be signed physically on site in Vienna, Austria, with our escrow lawyer to finalize the purchase together.

The buyer pays the agreed purchase price into the escrow account after this has been officially confirmed and verified by the seller himself. The seller then sends the bitcoins to the escrow agent's wallet.

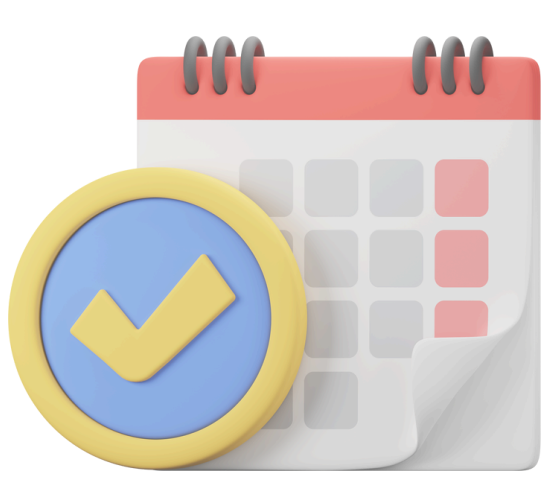

At the same time, the escrow lawyer transfers the amount to the seller's account.

The large sums of money are of course insured by the escrow lawyer, ensuring a 100% guarantee between both parties. It is possible to receive the funds alternatively in USDT (Tether) or in fiat currency, depending on your individual preferences and requirements.
