

# Process Procedure: Looking for Bitcoin Buyers

## Operating Procedure (SOP) - BTC to USDT Exchange BTC Supply from Bitcoin Miner Wallets

### ✔ Introduction

This document describes the standardized procedure for the secure and transparent exchange of BTC for USDT.

### 📄 Offer Details

- **BTC Price Advantage:** 5/3 discount (better discount possible for large volumes)
- **Accepted Stablecoins:** Tether (USDT-ERC20 & TRC20)
- **Payment & Settlement:** Incremental in tranches to ensure security for both sides
- **No Risk:** The SourceWeb Group sends Bitcoins first, 100% in advance of payment, based on trust.

### 🔧 Step-by-Step Procedure

#### ✔ 1. Provision of a private USDT Wallet for verification

- The buyer provides a private USDT wallet with a minimum balance of \$50 million USD.
- Upon approval, the buyer will receive a test sum coded amount (CA) and the address of our USDT receiving wallet.
- In addition, we will send the buyer one of our BTC wallets, from which the swap will take place.

#### ✔ 2. USDT Wallet verification by CA transfer

- The buyer transfers the test coded amount (CA) in USDT to our receiving wallet to confirm control of their wallet.
- Deadline: within 45 minutes to 1 hour after receiving the data.
- After:
  - Send Screenshots (iPhone pics) of the Transaction from initiating to completion.
  - Provide picture of Hash & TXID for Confirmation

#### ✔ 3. Test BTC Transaction & BTC Verification

- After successful wallet verification, the buyer sends us their BTC receiving wallet.
- We transfer 1 full BTC to the buyer's BTC receiving wallet as our Satoshi.
- The buyer performs forensic testing to confirm the authenticity of the BTC.

- **After confirmation:**
  - Payment of the 1 BTC amount in USDT is made immediately or within max. 1-2 hours.

✓ **4. Agreement on tranches & invoicing**

- Preparation of a tranche plan and invoicing, by mutual agreement.
- Our trading desk cryptologist/trader handles the process professionally.
- Only if requested by the buyer, a CIS (Client Information Sheet) exchange between the main principles can be arranged.

✓ **5. Delivery of the remaining BTC tranches**

- All subsequent BTC tranches will always be delivered first.
- After receiving each BTC tranche, the buyer performs his forensics.
- Payment in USDT must be made within 1 hour of receipt of BTC.

✓ **Conclusion & Safety Instructions**

- All processes are designed for maximum transparency and security.
- The step-by-step process ensures a smooth process.
- Confidentiality and compliance are guaranteed at all times.
- No risk: SourceWeb Group is 100% upfront by sending the BTC in advance.
